

Daan Schenkel

👤 Profile

Skilled programmer with 7+ years of experience.

Started at young age, skilled and excited!

📁 Employment History

Building a blogging website at Talentissimo

Created a custom-coded website made in PHP for young people with giftedness.

Project abandoned, no live demo available.

Designing and creating a band website at Starling Days

Designed and created a band website for the band "Starling Days".
Manages hosting too.

starlingdays.com

Building a full-stack website for education at PraktijkBijBaan

Developed a website where people with less knowledge can find jobs that might appeal them, and link them with job offerings that are willing to accept them.

Project stagnated right now, no live demo available.

Backend/Frontend developer at Karen.pics

A website where users can upload images and share them easily.

Mainly made for the Discord platform and layed out in a fun way to appeal to younger audiences, because they mainly use the Discord platform.

karen.pics

Discord Bot Developer at De Middelbare (Discord)

Created a Discord bot where students could apply for tutoring, and they could be linked to the right (kid) teachers and learn from eachother.

<https://discord.gg/GjEhRAz7rp>

Discord Bot Developer at De Jonge Onderzoekers (Discord)

Created a bot to "replace" the current teacher. Functions included:

- Announcing break
- Checking code
- Saying hello and goodbye to everyone
- Providing everyone something to eat and to drink (in the form of images) :)

Project abandoned and server not open to the public, no live demo available.
